ADD-2723 has been
developed to produce
rapid de-aeration of
solvent-free
polyurethane and

Access Free Additives For

solvent-free epoxy compounds used in flooring application, so that foam and blister-free self-leveling coatings can be produced.

ADD-2723 acts as a leveling agent, giving a smooth surface to the coating. On the other hand, ADD-2723 presents the advantage of low odor.

Epoxy Floor Coatings *Epoxy Additives - Ethox*

The laboratory results showed the presence of an amine or an amine salt material and a hydrocarbon-based exudate between the two solvent-free epoxy coating layers. These materials were found

Access Free Additives For

in the blister liquid
and between the two
high build coating
layers both above and
below the waterline.

Moisture Issues with Solvent Free Epoxies - EPOXY PRODUCTS

The solution to
extending epoxy's
pot life is to put in
additives that are slow

Access Free Additives For

Solvent Free Epoxy Floor Coatings
to evaporate, like water, so it doesn't start actively hardening until most of the additives are gone. The big advantage to using water as the additive is that it's non-toxic, and doesn't create any fumes.
