When it comes to photo printers, the last thing you want to sacrifice is quality. Canon's Pixma Pro-100 may be a pretty significant investment, but you get exactly what you pay for with this printer. All photo printer brands like to claim fast printer speeds and great color prints, but Canon backs it up with room to spare.

The 10 Best Photo Printers of 2020 - Lifewire
A4 size printers are inexpensive and useful for all sorts of chores, not just photos, but for the best photo printer we'd always recommend a larger A3+ format model. For printing up to A4 in size (8.5x11 inches in the USA), most recent models follow Canon's lead of combining a pigment-based black ink for crisp document printing, with four or more dye-based inks for premium photo output on ...

The Canon Pixma Pro-100 Printer is a detail-oriented printer that can print images up to 13 in. x 19 in. However, it can also print smaller images as well, putting it well in the running as one of the best business card printers for graphic designers as well.. It uses 8 dye-based inks to ensure vibrant colors including yellow, magenta, photo magenta, cyan, photo cyan, gray, light gray, and black.

Best Printers For Graphic Designers Review & Buying Guide ...
1 - Selphy photo printers : Canon Selphy CP1300 | Less than $150. So I chose a Canon Selphy printer (4" x 6" photo prints) in this category whose printing quality is obviously a photo quality with a printing fineness of 300 dpi so perfectly invisible to the naked eye. And in addition, the colours hold quite well over time according to my own tests (eight years for the longest ones).

2018 Buying Guide for the best photo printers
Normal inkjet printers use three colours -- cyan, magenta and yellow -- along with a black ink to produce their ouput. Some models use a single cartridge for the three colours, while others use...

Inkjet printer buying guide - CNET
A low-resolution photo printer will print inferior quality photographic prints so buying such a printer would be a waste of money. Instead, make an informed choice and buy a printer which provides a better resolution of at least 4,800 x 1,200 dpi. If your pockets allow, go for even more than that but don't settle for less.
