Should I let my dog sleep in bed with me? Can my puppy share my dinner? How do I keep my dog happy while I'm away at work? Dog is the book for every day of your dog's life - and every day of your life with your dog. This is the enduring story of man and dog. At its heart is an emotionally intelligent analysis of the lifelong partnership between the two species, with such wit and wisdom that will shape your attitude, influence your actions, and provoke the happiest and healthiest lives for you and your dog. But it's in the detail of this book that you'll find magic: in the miracle of birth, the too-short puppyhood, the exasperating adolescence and calmer adulthood. In Dog, Dr. Bruce Fogle explains the familiar and mysterious relationship between man and dog. Throughout this evocative and detailed study he reveals - by exploring behaviour, anthropology and genetics - the essential bonds of trust, loyalty and service that mark humankind's most valuable and long-lived of animal friendships. You'll turn to this book every time your dog surprises you, worries you, needs you, misses you, and plays, exercises, runs or swims. This is the book to take from the shelf when you plan to choose a new puppy or must face the autumn years of a much-loved old friend, for training, and for the very best veterinary advice in emergencies.

Faith. Trust. Triumph. "I'm sorry," the doctor said. "He is permanently and totally blind. There is nothing we can do for him." George and Sarah Hingson looked at each other, devastated. Their six-month-old son, Michael was a happy, strawberry blond baby boy, healthy and normal in every way except one. When the Hingsons switched on a light or made silly faces, Michael did not react. Ever. "My best suggestion is that you send him to a home for the blind," the doctor continued. "He will never be able to do anything for himself." Forty-seven years later, a yellow Labrador retriever puppy was born in the whelping unit of Guide Dogs for the Blind in San Rafael, California. The puppy's name was Roselle. On September 11, 2001, she saved Michael's life. This is Roselle's story too. —From the Introduction Every moment in Michael Hingson's and Roselle's lives seemed to lead up to this day. When one of four hijacked planes flew into the World Trade Center's north tower on September 11, 2001, Michael Hingson, a district sales manager for a data protection and network security systems company, was sitting down for a meeting. His guide dog, Roselle, was at his feet. Paired for twenty-one months, man and dog spent that time forging a bond of trust, much like police partners who trust their lives to each other. Michael couldn't see a thing, but he could hear the sounds of shattering glass, falling debris, and terrified people flooding around him and Roselle. However, Roselle sat calmly beside him. In that moment, Michael chose to trust Roselle's judgment and not to panic. They were a team. Thunder Dog is a story that will forever change your spirit and your perspective. It illuminates Hingson's lifelong determination to achieve parity in a sighted world and how the rare trust between a man and his guide dog can inspire an unshakable faith in each one of us.
