Engine Rebuilding. We restore your engine inside and out. We replace all bearings, timing chains, pistons, rings, valves, valve springs, cam bearings, chain guides and tesioners. We replace other parts such as valve guides and tappets as needed. We adjust the valves and balance all rotating parts. Everything is cleaned, detailed, plated, polished or painted as appropriate.

Engine Rebuilding - Vintage Jag
Hello Named Bat, don't try garages, you need to try engine reconditioners, particularly ones used to classic engines. however I don't think that having your own rebuilt will be much less than a reconditioned unit, although it does depend on the extent of the work required.

The AJ-V8 was designed to use Nikasil -coated cylinders rather than the more-common iron cylinder liners. However, like the BMW M60, high-sulphur fuel reacted with the Nikasil coating and caused engine failures. Jaguar replaced affected engines, and has used conventional cast-iron linings ever since.
