immensely frustrating how many people could have done better if they'd just spent the time to revise their Java knowledge and practice their soft skills. Interviews are hard. I should know, I've interviewed hundreds of developers and many fail the interview (even the awesome coders). I looked online to discover that the limited material available was fragmented and poor in quality. As a result I wrote Java Interview Bootcamp- this is my guide on how to ace Java interviews based on my experience from both sides of the desk.
