Drawing on the amazing story of a polar exploration team ' s survival against all odds, author Dennis N. T. Perkins demonstrates the importance of a strong leader in times of adversity, uncertainty, and change. Part adventure tale and part leadership guide, *Leading at the Edge* uncovers what the legendary Antarctic adventure of Sir Ernest Shackleton and his team of twenty-seven polar explorers can teach us about bringing order to chaos through true leadership. Among other skills, you ' ll learn how to instill optimism while staying grounded in reality, step up to risks worth taking, consistently reinforce your team message, set a personal example, find things to celebrate, laugh small things off, and--even in the face of extreme temperatures, hazardous ice, dwindling food, and complete isolation--never give up. The book ' s second edition features additional lessons, new case studies of the strategies in action, tools to uncover and resolve conflicts, and expanded resources. An updated epilogue compares the leadership styles of the famous polar explorers Shackleton, Amundsen, and Scott, which transcend the one-hundred-plus years since their historic race to the South Pole to help today ' s leaders learn valuable lessons about the meaning of true success.

Lessons on authentic leadership from the 58th annual Antarctic expedition In *Leading on the Edge*, successful business speaker and consultant Rachael Robertson shares the lessons she learned as leader of a year-long expedition to the wilds of Antarctica. Leading eighteen strangers around the clock for a full year—through months of darkness and with no escape from the frigid cold, howling winds, and each other—Robertson learned powerful lessons about what real, authentic leadership is. Here, she offers a deeply honest and humorous account of what it takes to survive and lead in the harshest environment on Earth. What emerges from her graphic account is a series of powerful and practical lessons for business leaders and managers everywhere. Features practical leadership lessons that are particularly helpful for any leader who must get the best out of the team they've got Features solutions to many challenges common to all workplaces Includes real excerpts from Robertson's personal journals through twelve months of leading in the most challenging environment in the world Written by a popular speaker and business leader who has appeared at more than 350 national and international conferences and events for a wide range of industries *Leading on the Edge* explains what it's like to take charge when you've no place to hide and how truly harsh environments can serve as a leadership laboratory that results in truly effective, authentic leadership.

FOREWORD BY LEGENDARY DUKE BASKETBALL COACH MIKE KRZYZEWSKI On the Edge is an engaging leadership manual that provides concrete insights garnered from various extreme environments ranging from Mt Everest to the South Pole. By reflecting on the lessons learned from her various expeditions, author Alison Levine makes the case that the leadership principles that apply in extreme adventure sport also apply in today's extreme business environments. Both settings require you to be able to make crucial decisions on the spot when the conditions around you are far from perfect. Your survival -and the survival of your team-depend on it. Featuring a Foreword from legendary Duke University basketball coach Mike Krzyzewski who knows all about leadership, *On the Edge* provides a framework to help people scale whatever big peaks they aspire to climb-be they literal or figurative-by offering practical, humorous, and often unorthodox advice about how to grow as a leader.

Position your company for innovation and growth as a global leader. The most successful global leaders lead from the edge. They understand context and the changing landscape in ways most people don't. - Learn the 10 essential traits successful global leaders embody; each leader doesn't possess all 10, but each has a healthy mix.
- Learn how seven top executives used their strengths for global successes.
- Give your organization the edge in today's global market.

Every day, in every facet of our lives, opportunities to lead call out to us. At work and at home, in our local communities and in the global village, the chance to make a difference beckons. Yet often, we hesitate. For all its passion and promise, for all its excitement and rewards, leading is risky, dangerous work. Why? Because real leadership—the kind that surfaces conflict, challenges long-held beliefs, and demands new ways of doing things—causes pain. And when people feel threatened, they take aim at the person pushing for change. As a result, leaders often get hurt both personally and professionally. In *Leadership on the Line*, renowned leadership authorities Ronald A. Heifetz and Marty Linsky marshal a half century of combined teaching and consulting experience to show that it is possible to put ourselves on the line, respond effectively to the risks, and live to celebrate our efforts. With compelling examples including the presidents of countries and the presidents of organizations, everyday managers and prominent activists, politicians and parents, the authors illustrate proven strategies for surviving and thriving amidst the dangers of leading: "Getting on the balcony": stepping back to get perspective while remaining fiercely engaged "Thinking politically": keeping the opposition close, but watching your allies, too "Orchestrating the conflict": using stress productively to work the issues "Giving the work back": putting the responsibility on those who need to make the change "Holding steady": maintaining your focus while taking the heat The authors also address often-neglected aspects of leadership, such as how to manage your personal vulnerabilities, and how to anchor yourself and sustain your spirit through tough times. Both uplifting and practical, this essential book enables each of us to lead courageously and confidently—without losing ourselves. AUTHOR BIO: Ronald A. Heifetz and Marty Linsky are on the faculty at the John F. Kennedy School of Government at Harvard University. Heifetz is the author of *Leadership Without Easy Answers* and Co-director of the school's Center for Public Leadership. Linsky is Faculty Chair of many of the school's executive programs, including Senior Officials in State and Local Government and Leadership for the 21st Century.

What does it mean to 'be a leader'? What does true leadership look like in the 2020s, when we're facing complexity and challenges in every direction – from climate disaster to political division, and inequality to consumer mistrust? And how can we be part of the solution, while crafting a meaningful and satisfying career? The answers aren't simple, but Holly Ransom is closer to finding them than most. Barely into her thirties, since chairing the G20 Youth Summit in 2014, Holly has been working with and learning from the heads of countries, companies and charities to help them disrupt what they do and change the world for the better. In her fearless and widely-researched manifesto, this innovative young thinker shows how it is within everyone's reach, everyone's ability and everyone's power to be an effective leader – in business and beyond. Through three principles – mindset, method and mastery – you'll discover how to first lead yourself, then others. And you'll benefit from the wisdom of the luminaries Holly has interviewed, from Susan Cain and Condoleezza Rice to Barack Obama and Malcolm Gladwell. This is the path to the leading edge – and becoming the leader the world needs you to be.

Lead your business to survival and success by following the example of legendary explorer Ernest Shackleton Sir Ernest Shackleton has been called "the greatest leader that ever came on God's earth, bar none" for saving the lives of the twenty-seven men stranded with him in the Antarctic for almost two years. Because of his courageous actions, he remains to this day a model for great leadership and masterful crisis management. Now, through anecdotes, the diaries of the men in his crew, and Shackleton's own writing, Shackleton's leadership style and time-honored principles are translated for the modern business world. Written by two veteran business observers and illustrated with ship photographer Frank Hurley's masterpieces and other rarely seen photos, this practical book helps today's leaders follow Shackleton's triumphant example. "An important addition to any leader's library." -Seattle Times

How does a Christian lead? By following today's secular business models, or by simply studying the life of Christ and pursuing a servant-based style? In this insightful, practical book, George Barna has pulled together some of today's top Christian leaders to talk about the subject of Christian leadership. Articles include: *The Tasks of a Leader* by Ken Gangel, *The Character of a Leader* by Jack Hayford, *Prayer in Leading People* by Peter Wagner, and much more. See what today's leaders have to say about leadership, and learn what it takes to serve the Church as a Christ-centered change agent.

Leaders and managers face tremendous pressure to keep their organizations moving forward successfully. It can seem like an impossible task amid economic uncertainty and hyper-competition. The roles of leader and manager tug us in opposite directions: managers seek stability and predictability, and leaders usually opt for turbulence and change. With so many companies asking their best employees to be both leaders and managers, it's no wonder that so much of the business world is dysfunctional. This guidebook explains how leader-managers work and how to succeed in both roles. You can learn how to leverage competing requirements for leading and managing change; formulate effective operational and developmental strategies; make decisions that address complex challenges and opportunities; and help people through the anxiety and trauma of change. Whether you are a student seeking to understand the workplace, an employee rising up the ranks or an active leader or manager, *Strategic Leadership and Strategic Management* provides you with tools and knowledge to help your organization succeed.

Ten vivid you-are-there accounts of chief executive officers who are reinventing leadership, providing insight and tools crucial for moving forward in a world turned upside-down. The tumultuous changes in the marketplace, the impatience of a new generation, the specter of inequality, and, most recently, the simultaneous challenges of a pandemic, economic collapse, and racial crisis all cry out for new thinking to confront a radically changed world. Michael Useem has integrated himself into the life and work of CEOs of major companies-- including Bill McNabb of Vanguard, Jeffrey Lurie of the Philadelphia Eagles, and Tricia Griffith of Progressive--and chronicles their "moments of truth," those turning points when chief executives

confronted the hard realities of a new, harsher world and faced the fact that what they were doing was no longer working. He explores how they approached fateful decisions on management, retention, hiring, and the bottom line, and provides unprecedented insight into how company leaders reached their most critical decisions. Useem provides a new roadmap for how to reach decisions in any organization as we face the decade ahead--one in which massive disruptions are likely to emerge yet again-- and how to lead when an executive needs to be a 24/7 communicator, crisis leader, and an emphatic voice inside and outside the organization, dealing with employees, customers, officials, non-profits, governing boards, Wall Street, the media, and investors.
