Introduction to Managerial Accounting, 4/e by Brewer/Garrison/Noreen is based on the market-leading
text, Managerial Accounting, by Garrison, Noreen and Brewer. However, this is not simply a briefer book
with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e
is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the
managerial accounting student without unnecessary depth on advanced topics associated with the follow-

up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

Give your students a solid foundation in core accounting concepts while helping learners develop a true appreciation for why accounting is important to business and a prosperous society.

Warren/Reeve/Duchac's FINANCIAL AND MANAGERIAL ACCOUNTING, 14E clearly demonstrates how accounting is much more than simply data and black and white rules. Instead, students see how accounting provides key information used to make critical business decisions. A new chapter schema provides context for how each chapter's content fits into the big picture. The book focuses on why accounting is important and consistently reinforces connections to the big picture by connecting journal entries to the accounting equation. Fresh organization progresses from the simplest to the more complex topics with reorganized and fully integrated coverage of the new Revenue Recognition standard, reorganized coverage of adjustments, and reorganized managerial accounting chapters Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
