### Math Connects Answers 6th Grade

Connected Mathematics is a comprehensive mathematics program intended for U.S. students in grades 6-8. The curriculum design, text materials for students, and supporting resources for teachers were created and have been progressively refined by the Connected Mathematics Project (CMP) at Michigan State University with advice and contributions from many mathematics teachers, curriculum developers, mathematicians, and mathematics education researchers. The current third edition of Connected Mathema

### Connected Mathematics - Wikipedia

In topology and related branches of mathematics, a connected space is a topological space that cannot be represented as the union of two or more disjoint non-empty open subsets. Connectedness is one of the principal topological properties that are used to distinguish topological spaces. A subset of a topological space  $X$  is a connected set if it is a connected space when viewed as a subspace of  $X$ . Some related but stronger conditions are path connected, simply connected, and  $n$ -connected. Another
