Arguably the Mazda MX-5 was single-handedly responsible for the revival of the sports car market, sparking off a new era of convertible fun, and examples of this popular roadster are now plentiful and affordable on the second-hand market. This practical guide provides expert advice on how to breath new life into a used and perhaps tired example of this modern-day classic. From preventative maintenance, to the renewal of worn components and details of known problems and how to fix them, the clearly written, comprehensively illustrated text provides all the information required to enjoy an MX-5 on a budget.

Rod set out to create a new kind of owner's workshop manual--friendly, easy to understand, yet more detailed than any other manual: this book is the result. Rod stripped down an MX-5 ('Miata' USA/Eunos' Japan) in a domestic garage using ordinary tools and, in the process, took over 1500 step-by-step photographs. The result is a superbly detailed text which passes on to the reader every detail of important jobs, including how problems can be overcome without resorting to special tools.
