recognized to be now a non-western enterprise since the high concentrations of Christians in the world are no longer found in the Western societies. Christian Theology and African Traditions takes seriously this present recognition of the southward movement of Christianity

from the western world to a non-western setting. It seeks to reposition Christian theology and faith to engage the African traditions in classical category of theology proper, bibliology, anthropology, Christology, pneumatology, soteriology, ecclesiology, and eschatology and

File Type PDF Memorex Mb2059b Manual

Consequently, Christian Theology and African Traditions goes beyond the mere criticism of Western misrepresentation of African traditions to seeing how the Christian theology in its systematic character engages the African traditions. With this methodological template, the work
