Written by two internationally respected authors, this unique primer distills the environmental law and policy of the United States into a practical guide for a nonlegal audience, as well as for lawyers trained in other regions. The first part of the book explains the basics of the American legal system: key actors, types of laws, and overarching legal strategies for environmental management. The second part delves into specific environmental issues (pollution, ecosystem management, and climate change) and how American law addresses each. Chapters include summaries of key concepts, discussion questions, and a glossary of terms, as well as informative "spotlights"—brief overviews of topics. With a highly accessible structure and useful illustrative features, A Guide to U.S. Environmental Law is a long-overdue synthetic reference on environmental law for students and for those who work in environmental policy or environmental science. Pairing this book with its companion, A Guide to EU Environmental Law, allows for a comparative look at how two of the most important jurisdictions in the world deal with key environmental problems.

With the advent of new technology, new markets, and new products, the rapidly changing responsibilities of the professional housekeeper demand a resource manual for today's lodging industry. In this Fourth Edition of The Professional Housekeeper, the authors address the evolving role of the professional housekeeper as a manager. No longer responsible only for cleaning duties and time schedules, today's professional housekeeper must be knowledgeable about staff diversity issues, building relations with unions, and maximizing the uses of available technology while staying aware of the bottom line. The professional housekeeper must also be aware of growing health and safety concerns. This comprehensive text has been updated to include everything from the latest information on self-managed teams in cleaning, "green cleaning," and recycling, to technological advances in the industry. Students and teachers alike will find The Professional Housekeeper, Fourth Edition an invaluable reference for this ever-changing profession.

Special symposium by leading scholars and lawyers on intellectual property law, including patents and trademarks. The Green Issue presents cutting-edge articles on the emerging "green" movement in environmental law and its promotion through IP law. Topics include encouraging biodiversity, green labeling and fake marketing, greenwashing, miscalculation of long-term costs, and patenting environmental tech.

All Devon Wright wants is peace and some time to chill with his boys. He's jerseyed up and waiting for his boy, Charles, to show up with tickets to the Atlanta Falcons' season opener. Instead, at his front door he finds "Satan's little sister," aka Quartisha Shauntae Randall, his baby momma. Once again, she's dropping off their daughter unexpectedly and ruining his plans. Devon doesn't mind, though. His daughter, Brianna, is the most important thing in his life. He's worried about the poor example Shauntae (He refuses to EVER call her by her first name) is setting with her ghetto-fabulous lifestyle. He can't believe he ended up with such a crazy baby momma. He's vowed to stay away from all women for a while—until Charles introduces him to Cassandra. Cassandra is nothing like Shauntae. She's a good, church-going woman. Devon is pleasantly surprised to find out that Cassandra's not what he thought a Christian woman would be. Cassandra Parker is not only fine; she's also smart, sassy, and sexy. Devon is intrigued, and he wants to get to know Cassandra better, but how will he be able to handle his daughter, his crazy baby momma, and a new woman in his life?
