Updated to reflect the latest technology in the automotive industry, this book will provide the knowledge and skills needed to successfully inspect, maintain, and repair vehicles of all makes and models. Automotive Service: Inspection, Maintenance, and Repair, 3E begins by introducing readers to a number of automotive career options, shop management basics, plus necessary tools and equipment. The book then progresses to the theories of vehicle systems operations and includes step-by-step procedures for troubleshooting and repairing all major systems of the modern automobile. Updates include coverage of new vehicle technology like EVAP systems, on-board diagnostics and emissions, alternative fuels, and hybrid vehicles, making this book not only comprehensive but also current so that readers can feel confident they are learning the very latest in industry trends and techniques.

This book bridges the research and practice of global talent management. It opens important theoretical and practical avenues to understand the concept internationally while focusing on developing and emerging countries. Chapters derive from various geographic regions and embrace cross-national, comparative, and interdisciplinary perspectives. An open and inclusive approach is used in assessing the challenges of global talent management, strategies to overcome these challenges, and in charting opportunities for future talent management. These three dimensions are crucial to academic researchers and business practitioners for envisioning a positive future role of talent management in businesses and societies. ?

In How to Super Tune and Modify Holley Carburetors, best selling author Vizard explains the science, the function, and most importantly, the tuning expertise required to get your Holley carburetor to perform its best for your performance application.
