I also have a 99 Challenger 1800 and last  
weekend fixed the fuel sensor. You need

# File Type PDF Sea Doo Challenger 1800 Manual

to check the resistance between the pink and pink/black wires. If it shows open, then it is the F1 resistor. The fix as described in this forum is relatively easy and it took maybe an hour. I opened the hole with a razor blade since the plastic is very soft.
