In 33 Strategies of War, Robert Greene turns military combat into an appropriate metaphor for life in the so-called civilized world. The author introduces the book with a warning to not be deceived by the political correctness and democratic values that the modern world promotes, because beneath the splendor of the king's court is nothing more than human nature broiling in its most aggressive essence, and rather vented through covert, subtle, and socially accepted ways.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of The Laws of Human Nature. In the book that People magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, The 48 Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

The Art of War is an enduring classic that holds a special place in the culture and history of East Asia. An ancient Chinese text on the philosophy and politics of warfare and military strategy, the treatise was written in 6th century B.C. by a warrior-philosopher now famous all over the world as Sun Tzu. Sun Tzu's teachings remain as relevant to leaders and strategists today as they were to rulers and military generals in ancient times. Divided into thirteen chapters and written succinctly, The Art of War is a must-read for anybody who works in a competitive environment.

Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of The 48 Laws of Power, Mastery, and The 33 Strategies Of War.

Learn how to apply the main ideas and principles from the original book in a quick, easy read! We live in a culture that highlights the importance of democratic values, of fitting into a group, of knowing how to cooperate with other people. We are constantly trained and prepared for peace, but we're not at all prepared for the perpetual war that we must fight in the real world. This war occurs not only on the military battlefield, but on multiple levels of society. In business, politics, sports, even the arts, we find ourselves facing ruthless opponents that are willing to do anything to gain an edge. More troubling, however, are the battles we face with those who claim to be on our side--those who seem to play the team game, who act friendly and agreeable, only to sabotage us behind the scenes, to use the group to secure their own selfish interests. On the surface everything seems peaceful and harmonious, but just below it, it is often every man and woman for themselves. Our culture may deny this reality, but we all know it and feel it in our daily lives. As equally important as "The 48 Laws of Power" and "The Art of Seduction", "The 33 Strategies of War" by Robert Greene is a comprehensive guide to human interaction which reveals how the most ingenious and effective principles of warfare can be applied to the battles and conflicts of everyday life. Each chapter is a strategy aimed at solving a particular problem that you will often encounter in your daily struggles. The strategies range from the basic strategies of classical warfare to the dirty and unconventional strategies of modern times, and can be applied to struggles of any kind: organized warfare, business campaigns, the politics of a group, or personal relationships. This summary highlights the key ideas and captures the most important lessons found in the original book.
